

2)

Pro)

Using animals in a disease research is a very good option as we are biologically very similar, some of them have the same health problems as we have and also it saves human lives which could have been used for unsuccessful experiment

Добавлено примечание ([AK1]): Too primitive word – beneficial, advantageous, favorable

Добавлено примечание ([AK2]): Spelling

Con)

We lose thousands of animals in the name of science, some of those innocent animals die for nothing.

Добавлено примечание ([AK3]): For the sake of

Добавлено примечание ([AK4]): There should be 3 reasons

3)

Pro)

Setting an age limit for driver's license helps not to let youth, which is not fully undeveloped, into the seat of the driver, also it helps to track down criminals as adult drivers will have a passport, in addition adults who are over 18, often are more calm and rational than high-tempered teens or kids.

Добавлено примечание ([AK5]): developed

Добавлено примечание ([AK6]): developed how? Psychologically, physiologically?

Добавлено примечание ([AK7]): Comma ,

Добавлено примечание ([AK8]): Good but wordy

Cons)

However, it may encourage underage teens to buy illegal license to drive

Добавлено примечание ([AK9]): Only one reason. There should be 3

4)

Pro)

Space exploration might bring us a lot of wonderful things like an opportunity to discover more resources, gain new knowledge from advanced civilizations if they exist, and also it would be our back up plan, in case something mass-destructive happens on earth.

Добавлено примечание ([AK10]): Not thing but advancements or insights ?

Добавлено примечание ([AK11]): Earth – capital letter

Cons)

On the other hand, using all those resources spent on space exploration to solve our already existing problems on the Earth could be a better idea

Добавлено примечание ([AK12]): Very vague, there should be exact reasons why

5)

Pros)

Every person has a right, not to share his information, and for a personal space where he won't be tracked, also it is a good idea to keep some inform
