

ASSIGNMENT #2
Data Structures (SOC2010)

Submission Deadline: 24 /09/ 2023 (23:45 Hr.)

NOTE:

1. You are required to **take print out of this sheet** and solve (**handwritten**) the questions on sheet only.
[Submissions not conforming to the given format will not be evaluated]
2. **Copying** of solution is strictly prohibited. In case it is found, then zero marks will be awarded.
3. Submit the scan copy of your solution on eclass. Late submissions are not accepted.

Questions 1

Consider the following **list1** and **list2** as shown below. Combine the two list as shown, make sure that the cost of combining the two list should be **constant** [i.e. $O(1)$]. You are expected to write only the statements (main logic) to get the desired list (don't write complete program code)

Write your logic here

Questions 2

Write the logic to combine the two given list as shown below. Also comment on the cost of operations performed

Write your logic here
