Academic Dishonesty Policy

- In order for instructors to fairly assess the quality and quantity of a student's learning (through course grades) as determined by work that students represent as their own, a relationship of trust between instructor and student is essential.
- Because violations of academic integrity most often involve, but are not limited to, efforts to deceive instructors, they represent a breach of the trust relationship between instructor and student, and undermine the core values of the university.

For these reasons, the University and its instructors treat issues of academic dishonesty as serious violations of academic trust, and conduct rigorous investigations of students suspected of committing such acts.

ACTS OF ACADEMIC DISHONESTY INCLUDE, BUT ARE NOT LIMITED TO, THE FOLLOWING:

- the illegitimate use of materials in any form during a quiz or examination
 - copying answers from the quiz or examination paper of another student
 - plagiarizing (submitting as one's own ideas the work of another) or falsifying materials or information used in the completion of any assignment which is graded or evaluated as the student's individual effort
 - submitting the same work for more than one course without the consent of the instructors of each course in which the work is submitted
 - copying material from a web page and submitting it as one's own work
 - quoting extensively from a document without making proper references to the source
- ☐ If a student is found committing such acts in a quiz or home assignment or exam or term paper or term project he/she will be given a grade F in that course
- ☐
