

Syllabus

Fall 2024

Course: Engineering Communication

Professor: Saejin James Kang

Course No.: 202402-NTS3020-001

Grading Evaluation: Relative Evaluation

Course Objectives

By the end of this course, students will be able to:

1. Create a cover letter and resume tailored to a specific job description.
 2. Engage confidently in job interviews.
 3. Understand and address ethical issues such as plagiarism, and apply correct citation practices in writing and revising research proposals.
 4. Demonstrate effective delivery techniques in speeches and oral presentations.
 5. Understand global issues relevant to engineers.
 6. Appreciate the cultural backgrounds that influence communication practices.
-

Course Description

This course focuses on professional technical writing and public communication strategies tailored for engineers.

Students will develop business-related interpersonal skills, practice team collaboration, and engage in business-related presentations.

Class Structure

- **Online:** VOD (Video on Demand) lectures
 - **Groupwork & Discussion:** Collaborative exercises
 - **Other:** Additional resources as needed
-

Grading Breakdown

- **Attendance:** 30% (Watching VOD lectures)
 - **Assignments:** 30% (Homework)
 - **Projects:** 30% (Midterm, Final Projects)
 - **Participation:** 10% (Group Discussion)
-

Key Notes

- **Weekly Schedule:** A new lecture and assignment will be uploaded every Monday (or Tuesday the lastest), with assignments due in 7 days unless stated otherwise.
- **Late Submission:** Accepted with a grade penalty.
- **Heavy use of chat GPT** is not allowed, such as copying and pasting the assignment. Use your own words for your work.
- **Communication:** For any questions, **message me through e-class**. No communication via *email* or *Telegram*.
