Software Engineering

4Week [29 September - 05 October]

Quiz 1

Started on	2025-10-05 23:37
State	Finished
Completed on	2025-10-05 23:52
Time taken	15 mins 45 secs
Grade	19.00 out of 20.00 (95%)

Question 1

Complete

Mark 1.00 out of 1.00

What is a common symptom of a "toxic" team?

Select one:

- ☐ a. A clear definition of team roles
- ☒ b. A frenzied work atmosphere where members lose focus
- ☐ c. High levels of trust among members
- ☐ d. A sense of shared purpose

The correct answer is: A frenzied work atmosphere where members lose focus

Question 2

Complete

Mark 1.00 out of 1.00

What is one of the "Four P's" in the management spectrum?

Select one:

- ☐ a. Profit
- ☒ b. People
- ☐ c. Policy
- ☐ d. Protocol

The correct answer is: People

Question 3

Complete

Mark 0.00 out of 1.00

If a risk has a high probability and a catastrophic impact, what should its priority be in the risk table?

Select one:

- ☒ a. Low
- ☐ b. Medium
- ☐ c. High
- ☐ d. Ignored

The correct answer is: High

Question **4**
Complete
Mark 1.00 out of 1.00

The Waterfall Model is most suitable for which kind of projects?

Select one:

- ☐ a. Large, complex projects with unclear requirements
- ☒ b. Well-understood small projects
- ☐ c. Projects that require constant customer feedback
- ☐ d. Projects with high risk

The correct answer is: Well-understood small projects

Question **5**
Complete
Mark 1.00 out of 1.00

DevOps integrates which two departments to improve the software delivery speed?

Select one:

- ☐ a. Development and Human Resources
- ☒ b. Development and Operations
- ☐ c. Sales and Marketing
- ☐ d. Design and Testing

The correct answer is: Development and Operations

Question **6**
Complete
Mark 1.00 out of 1.00

The Spiral Model is highly focused on managing what throughout the development process?

Select one:

- ☐ a. Documentation
- ☒ b. Risks
- ☐ c. Team size
- ☐ d. Advertising

The correct answer is: Risks

Question **7**
Complete
Mark 1.00 out of 1.00

The principle "Keep It Simple, Stupid!" (KISS) in software engineering means:

Select one:

- ☐ a. Design should be as complex as possible.
- ☒ b. Design should be as simple as it can be.
- ☐ c. Only stupid people need simple software.
- ☐ d. Simple designs are not valuable.

The correct answer is: Design should be as simple as it can be.

Question **8**
Complete
Mark 1.00 out of 1.00

What is the first step in proactive risk management?

Select one:

- ☐ a. Wait for a risk to occur and then fix it.
- ☒ b. Identify potential risks before they happen.
- ☐ c. Ignore small risks.
- ☐ d. Immediately fire the team member associated with the risk.

The correct answer is: Identify potential risks before they happen.

Question **9**
Complete
Mark 1.00 out of 1.00

What is a primary component of software, besides the programs themselves?

Select one:

- ☐ a. Hardware
- ☒ b. Data structures
- ☐ c. Project manager
- ☐ d. Marketing plan

The correct answer is: Data structures

Question **10**
Complete
Mark 1.00 out of 1.00

A risk that "threatens the project plan" is known as what type of risk?

Select one:

- ☐ 1. Technical Risk
- ☐ 2. Business Risk
- ☒ 3. Project Risk
- ☐ 4. Predictable Risk

The correct answer is: Project Risk

Question **11**
Complete
Mark 1.00 out of 1.00

In testing principles, a "successful test" is one that:

Select one:

- ☐ a. Finds no errors.
- ☐ b. Completes quickly.
- ☒ c. Uncovers a previously undiscovered error.
- ☐ d. Is run by the customer.

The correct answer is: Uncovers a previously undiscovered error.

Question **12**

Complete

Mark 1.00 out of 1.00

In Extreme Programming (XP), what is a key coding practice where two programmers work together at one workstation?

Select one:

- ☐ a. Solo Programming
- ☒ b. Pair Programming
- ☐ c. Team Huddle
- ☐ d. Code Review

The correct answer is: Pair Programming

Question **13**

Complete

Mark 1.00 out of 1.00

For an Agile team, what is a critical success factor?

Select one:

- ☒ a. Individual competency and group collaboration
- ☐ b. Extensive and detailed upfront planning
- ☐ c. Strict adherence to a fixed process
- ☐ d. Minimizing all communication with the customer

The correct answer is: Individual competency and group collaboration

Question **14**

Complete

Mark 1.00 out of 1.00

Who are the individuals that specify the requirements for the software to be built?

Select one:

- ☐ a. Practitioners
- ☐ b. Senior Managers
- ☒ c. Customers
- ☐ d. End-Users

The correct answer is: Customers

Question **15**

Complete

Mark 1.00 out of 1.00

According to scheduling principles, every task should be assigned to what?

Select one:

- ☐ a. The cheapest contractor
- ☒ b. A specific team member
- ☐ c. An automated tool
- ☐ d. The customer

The correct answer is: A specific team member

Question **16**

Complete

Mark 1.00 out of 1.00

Which of the following is a key trait of a successful software engineer?

Select one:

- ☐ a. Avoiding all criticism
- ☒ b. Attention to detail
- ☐ c. Working in isolation
- ☐ d. Resisting change

The correct answer is: Attention to detail

Question **17**

Complete

Mark 1.00 out of 1.00

What is a common reason why software projects are late?

Select one:

- ☐ a. The team works too quickly.
- ☒ b. Unrealistic deadlines set by someone outside the team.
- ☐ c. Requirements never change.
- ☐ d. There are no technical difficulties.

The correct answer is: Unrealistic deadlines set by someone outside the team.

Question **18**

Complete

Mark 1.00 out of 1.00

What type of maintenance involves modifying software to repair problems discovered after delivery?

Select one:

- ☐ a. Adaptive Maintenance
- ☐ b. Perfective Maintenance
- ☒ c. Corrective Maintenance
- ☐ d. Preventive Maintenance

The correct answer is: Corrective Maintenance

Question **19**

Complete

Mark 1.00 out of 1.00

Risk Exposure (RE) is calculated as:

Select one:

- ☐ a. Probability + Cost
- ☒ b. Probability $\times$ Cost
- ☐ c. Cost - Probability
- ☐ d. Probability / Cost

The correct answer is: Probability $\times$ Cost

Question **20**

Complete

Mark 1.00 out
of 1.00

What is the first task in the project planning task set?

Select one:

- ☐ a. Estimate cost and effort
- ☐ b. Develop a project schedule
- ☒ c. Establish project scope
- ☐ d. Define required resources

The correct answer is: Establish project scope
