Task 3. N-Grams for predictive Text & Language Modeling.

[/ 4]

1. The bigrams constructed from the training sentences are:

2. For given user input to predict the next word, I need to compute the probabilities of the bigrams starting with _____

1. Count occurrences of " _____ ":

2. Count occurrences of each bigram starting with " _____ ":

- (_____ , _____) appears ____ time(s)

- (_____ , _____) appears ____ time(s)

- (_____ , _____) appears ____ time(s)

- (_____ , _____) appears ____ time(s)
